### IMPORTANT RULES of THUMB (Individual results may vary.)

\* If you choose for a gold(plated) LefreQue it is recommended to match the gold(plating) of your lefreQue with the gold(plating) of your instrument, yellow or rose. This could be the gold(plating) of the headjoint/mouthpiece/ligature, body or other features like the riser, crown, tab rings or keywork.

\*\*\*\* For positioning of the lefreQue on sax, clarinet and oboe, we recommend to put it straight from the reed to the body for the best results. Do not touch the ligature with your lefreQue.

**GOLD** Solid gold is our superlative and always makes the sound more brilliant.  
This is our premium line.

Please contact one of our Gold dealers for advice: [www.lefreque.com/resellers](http://www.lefreque.com/resellers) Reseller Gold

LEGENDA	
B	brass
RB	red brass
RB GP	red brass gold plated
SP	silverplated
FS	fine silver (999)
FS GP	fine silver (999) gold plated
Gold*	available 9K, 14K rose & yellow, 24K

### How to try:

#### Individual exercises

- Play a chromatic scale (long notes without vibrato). Play it with, without and then with lefreQue again. **Pay attention to intonation and evenness of tone production.**
- Play octaves. Play it with, without and then with lefreQue again. Listen to your tone as if you play a duet with your own overtones. **Pay attention to the difference in tuning with and without lefreQue.**
- Play different fragments outside your comfort zone with difficult slurrings or intervals. **Feel the differences in ease of playing and pay attention to your intonation.**

#### Joint exercise

- Play a scale together (long notes and without vibrato). Play it with, without and then with lefreQue again. First unison and then in octaves. **Listen to the difference in tuning and projection.**
- Play a duet with any other wind instrument. **Pay attention to the differences in intonation.**

**We hope you enjoy these exercises. Thanks for trying lefreQue!**

## Universal Manual & Choose your lefreQue for Saxophone

### Important !!!

Always place the  
plate with dots on top

Grab the band with  
your thumb and  
middle finger

Band over the ball

Always place your lefreQue at the side where  
the tube of your instrument is most free!
